Geology Today

Index 2000

Abbeystead disaster 6
Aberdeenshire Granite 48
Acanthostega 59
Achanthochaetetes 238
acid rain, due to volcanic eruptions 26,27–8
acidification, of surface waters 69,70
Advances 56–60,226–30
Africa, largest eruption, Dubbi volcano, Eritrea (1861) 228
algae, colonizing travertine 24
Ambondro mahabo 17–18
American Geological Institute (AGI), Earth Science Week 209
American Geophysical Union, Walter Sullivan Award for David Sington (*Earth Story*) 42
amoebic meningitis, from thermal pools 172
andesite 5
ANDREWS, P.
  resumption of gold mining in Coromandel Peninsula, New Zealand 214
  Rotorua, thermal planning blight 172
Angola, Luena, tree planting to prevent ravines forming 128
Anguilla 112–14
  geology of 113–14
    dry in spite of rainfall 113–14
  and its regional geography 112–13
  small brackish water bodies 114
animals, premonitory behaviour, is there a gene? 128
ankylosaurs 140,141
Anstrude Roche Claire 50–1,205–6
Aplite Quarry, Meldon, elbaite 76
'apparent polar positions' 139–40
Appleby Group 137
Archaeocyatha 236–7
  common in Lower Cambrian reefs 237
archaeology, and landscape, Ireland 150
Archaeoraptor liaoningensis, fake 165
Archean 21
Arequipa, possible eruption, Huaynaputina volcano 21
Arish Mell, Worbarrow Bay 71,73
Armboth Fell Dyke 34
Armenian earthquake (1988) 2
arsenic, Ganges delta, source debatable 162–3
ascent mechanisms, for granitic magmas 180–1
Ashford Black Marble beds 145
asteroids
  1998 KY26 studied 21
  Albert, lost and found 212
  Atens 115
  Cruithne, a moon of the Earth 45
  Mathilde 115
    density decreasing with time 57
    giant impact craters 56–7
  methods of destroying/moving 115
  with moons 19
  near-Earth 139
Astrobiology Science Conference 202
Astrosclera 238
Austinocrinus 155
Australia
  Kimberley Basin, xenotime dating of rocks 20
  Officer Basin, drilling into fresh-water aquifers 208
  Pilbara Craton, Archean rocks 21
  Woodleigh crater, Carnarvon Basin 230
autochthonously (def.) 22

ballast wall, Battersea Park 214
Baltic Brown Granite 4,219
Bambiraptor feinbergi 165
  not politically correct 165–6
banded gneisses, Naukluft Mountains 109
Bangladesh, Ganges delta arsenic problem 162–3
barite, in Hopeman Sandstone 187
Barrande, J. 231–2
  Systeme Silurien du centre de la Boheme 231–2
  work on fossils 231,232
Bath Geological Society 213,213
Bath Stone 213,213,221
batholiths
  thickness of 182
  traditional representation 180
Bazalgette, Joseph 12–13
Becquerel, H. 64
bentonite 131–2
BGS *see* British Geological Survey
binary star system HD98800B, failure in space? 54
biodiversity, time taken to rebuild after extinctions 139
biological lipids, molecular fossils of 21
Birling Gap, managed retreat policy, National Trust 167
bivalves 154,156
black shales 227
black smokers, problem of low effluent temperature 141–2
Blake, J.F. 232–3
  A Monograph of the British Fossil Cephalopods, Part 1 Introduction and Silurian Species 232
  active in the Geologists' Association 233
  Annals of Geology 232–3
Blind date: The importance of chronology in reconstructing the past 63–70
Blue Pennant (sandstone) 130
Bowland Fells 137
BOWLER, S., Geo-networking 14–16,94–6
BP (before present) timescale 66
Bradgate Park 9–10
Branch Line 79–80,239–40
Bredon Hill 207
Briefing 2–10,42–6,82–7,122–9,162–9,202–10
bristlecone pine 66,67,67
British Association Meeting (1999) 5–6
  Halstead Lecture, Living with volcanoes 26–31
British Earthquake Consortium for Turkey 167–8
British Geological Survey
  Discovering Geology 93
  fit for the 21st Century 123–4
  Fossil Focus 93
    Bivalves 4–5
    Brachiopods 94
    Corals 94
    Fish 94
    Trilobites 4
  Holiday Geology Guides 93,94
    Greenwich 4
    Lake District 11
    Lake District Story 4,11
    The Tower 4
  Holiday Geology Maps, Peak District
  its all in the cards 93–4
  sheet explanations replace Memoirs 172–4
    Fareham and Portsmouth 172–3
    Windsor 173
  Tourist's Rock, Fossil and Mineral Map of Great Britain 218–19
  what is the fate of the 'Memoirs'? 136–7
British Museum, Anstrude vs. Portland Stone 50–1,205–6
brown dwarfs, methane-rich atmospheres 54
BRUCE, A., Anguilla 112–14
bryophytes, colonizing travertine 24
bryozoans 154,156
Buckingham sandpit 124
  a Local Nature Reserve 133–4
    example of glacial sands and gravels 134
buergerite 76
building repair and conservation, return to original source 50–1
building stone, hole-spotting 213–14
bullet theory, links asteroid impact and volcanism 90–1,115
Burghead Beds 185

Caen Stone 4,50–1
Calappa (Shame-faced crab) 113,113
Calcifibrospongia 238
calcite saturation, Slade Brook springwater 23–4
calcium carbonate
  inorganic, direct deposition onto sea floor 59
  in travertine dams 22
Calymene blumenbachi 175
Canada, largest ichthyosaur 208–9,208,209
^{14}C dating, and the record of climate change 66
CO_2, reconstructions of atmospheric concentrations 226–7
Carboniferous Limestone, chert nodules in 143–4
Carboniferous sedimentation 5
Carib Indians 112
Caribbean Plate 112
Caribbean Sea, effects of Panama Isthmus on 112
Carlton-in-Cleveland, a worthy new church 86
Carrara Marble 48
  under pressure 165
cat litter 131–2
catastrophism 64
Caudipteryx, and dinosaurs to birds hypothesis 166,166
Caudipteryx dongi 166
Centralia, Pennsylvania, defying the fires 45–6
Cephalopodologist quartet 231–5
  August F. Foerste 233–4
  Joachim Barrande 231–2
  John Frederick Blake 232–3
  Rousseau Haynor Flower 234–5
Ceratoporella 238
Cetiosaurus 58–9
Chalk 73
  precipitation of flint 153
chatoyancy 78,160
Chernobyl nuclear accident 69–70
chert 143–8,159–60
  Bakewell chert 145–8
    chert mines 145–7
    extraction technique 146
    Holme Bank Mine 146,146,147
    Pretoria Mine 146
    trimmed to make wheels (burrs) 147
  blocks used in the Potteries 147
  massive banded 145
  origin of 143–4
    hypotheses for formation 143
  for pavors 147
  precipitation mechanism 144–5
    response to pore-water chemistry 144
  timing of formation 144
    early and late accretion 144
chertification, and hydrocarbons, Bakewell chert 145
Chesil Beach and The Fleet, not to become a national nature reserve 167

def. = definition; let. = letter; figures and tables in italics

Chicxulub impact
  may be K/T impact site 118
  setting up a resonance? 90
Chile, El Tatio geyser 101
China, *Confuciornis* in China 16–17
chromdravite 77
chronological techniques and their application 65–70
  ^{14}C and dendrochronology 65–7
  luminescence, varves and ^{210}Pb 67–70
chronology, importance of in reconstructing the past 63–70
  dating techniques, age of the Earth 64
  global environmental change, chronological techniques and their application 65–70
Cinder Bed 71,217
Cladochonus 39,*40*
Clashach Quarry *185*,187,*187*
clathrates *see* methane hydrates
Clayslate (Skiddaw Group) 33
CLEMENS, J.D. *see* PETFORD, N. and CLEMENS, J.D.
clergy, historical contributions to knowledge 129
climate, reconstruction of through tree-ring thicknesses 66–7
climate change 63–4
  catastrophic, around 540 Ma 67
  effects of Pinatubo 1991 eruption 28–9
  natural threat from 'supervolcanoes' 43
  and a NEO impact 114
'climatic optimum' (hypsithermal), dated by ^{14}C dating of peatbog 66
Cloud, P., and US Precambrian fossils 224–5
Clypeaster 113
Coade Stone 4,171
Coal Measures 5
coastal erosion
  Birling Gap 167
  disappointed Selsey, disappearing Dunwich 8
  East Riding Council, backtracking on 'leave-it-alone policy 83
  Eastbourne, 'death zone' area of housing 126
  fight to preserve Whitby Abbey 45
  Mont St Michel 'to be returned to the sea' 204
  problem of increasing 83
coastal landscapes, Ireland 150–1,*152*
Coeloscyphia racemosa 154
Colchester earthquake 125
Collyhurst Sandstone 137
comets 115
Community 2–5,42–4,123–5,167–9,207–10
Confuciornis 16–17,*16*
Confuciornis sanctus 16
Coniston copper mines, a CD-ROM pictorial guide 176
Coniston Limestone, Otley's description 33–4
Coniston Old Man, trail leaflets for 11
Conservation
  of erosion 167
  of existing Herculaneum ruins 58
  new Local Nature Reserve in Buckingham 124, 133–4
Continental Drift, Tate Britain 129
continental flood basalts (CFBs) 55–6
  all on margins of Precambrian cratons 55–6
  could be derived from asthenosphere 56
  plume hypothesis 55
continental rifting and thinning 56
Conulus albogalerus 155
Corals, (Fossils explained 28) Part I, Tabulates 37–40
  affinities and higher classification 39
  cnidarian soft-tissue anatomy 37–8
  palaeoecology 39–40
  tabulate coral colonies 38–9
Cordaites, views on, letter and reply 61
Cornish Granite 48
Correspondence 61–2,137–8,178–9,216–17
corrie glaciers 150,151
corundum 158
cosmic rays, generation and acceleration of 54
Crackington Haven
  a Cracking(ton) suggestion (let.) 138
  S.O.S. campaign (let.) 62
Craigleith Sandstone 136
creationism 165
Creetown Granite 93
crinoids 91,*155*,156
Crisina obliqua 154
crustal recycling 180
cryptic niches, for Archaeocyths and Sphinctozoans 237,238
cryptoendoliths 202,*202*
cultural eutrophication 69,70
Cumbrian Coastal Group 137
Cutties Hillock Sandstone 185,190
cycle-route signposts, 'fossil' decoration 174–5

Dalbeattie Granite 93
Dark Ages, possible cause of 115
Darwin Centre, Down House flints on roof 126
death
  causes of, variation with time *27*,*27*
  from natural catastrophes 44
Deccan Traps
  and Chicxulub impact 90
  dated by the Re-Os method 58
deformation structures 186,*186*
Delphi, oracle at, priestesses high on volcanic gases 171
dendrochronology 66–7
Derbyshire chert – An unusual bit of the hard stuff 143–8
desalinisation plants 114
desert sands, Namibia 108
deserts, Namib 108–9
Devensian ice, Ireland 149–50
  rapid retreat 151
Devon granite 135
Devonian, and the priority rule 12
dewatering structures 74,*74*
diamonds
  conditions for formation from methane 18–19
  Lappajärvi crater 59–60
  Namibia 109
diapirism, granitic 180,*180*
  density-driven 181
  hot-Stokes flow model 181
diatom analysis 69,70
digitigrade (def.) 187
Dinosaur Bird Evolution Symposium 165
dinosaur footprints, Foggia Province, southern Italy 205
dinosaurs
  after Pangea breakup 56
  another hypothesis for extinction 9
  ascendancy on land accidental 18,*19*
  brought to life 14–15
  crumbling
    Crystal Palace reconstructions 163,217–18
    skeletons at the Smithsonian 9
  databases 14–15
  Dinosaur Detectives (BBC) 14
  dinosaur heart, doubts growing 206–7
  Dinosaur, the movie 126–7
    characters too nice 163
  pricey 84
  rare in Yorkshire 58–9
  size, sex and extinction 6
  T. rex Sue
    at the Chicago Field Museum 127–8
    wishbone 128
  to birds, for and against 166
  Triceratops DNA matches modern turkey 126
  Walking with Dinosaurs 14
    A.A.Gill comment 86
    American revised version 129
    criticised 2–3
    popular in USA 126
  Willo's heart 162
DONOVAN, S.K.
  Corals 1 - Tabulates (Fossils explained 28) 37–40
  Processes and Patterns of mass extinction (Fossils explained 29) 116–20
  Sponges 1 and 2 (Fossils explained 31 and 32) 194–8,236–9
Dorn, Ronald, cleared of doctoring samples 169
Dorygerma benetti 195
Dorygerma romeri 154
Double Negative, Nevada, 'vandalism' 164
dravite 77
drumlins 149,150
Dry Stone Walling Association, millennium walls 130
drystone wall, a Scottish listed building 84
Dudley
  Dudley Bug 175
  statue to Duncan Edwards 175
'Durlston Beds' 217
Durlston Formation 72,75
dykes, sandstone, Hopeman Sandstone *189*
dykes and sills, mafic/ ultramafic, S. China 58

Earth
  age of
    calculations 64
    dating techniques 64
    'The Earth and Time' exhibition, France 135
  core composition 122–3
  danger of being hit by an asteroid 139
  glaciated to the equator 223
  mass of re-measured 127
  persistent low hum, windy maybe 122
  resonance within, possible effects 56
  solid inner core, crystal structure 60
  suggested mechanisms for bolide bombardment 119
  topography plotted by space shuttle 83
earthquake preparedness, not widespread 2
earthquakes *191–3*,194,207
  animal premonitory behaviour 128
  damage at distance dependent on ground conditions 229
  from hydrocarbon recovery, maybe 21
  Izmit, Turkey (1999), part of westward progression along Anatolian Fault 2,228
  large, Japan 215
  Mojave Desert 203
    multiple orientations for fault ruptures 203
  Quackenbush fraud 164
  smaller, better for defining detail in fault structure 122
  and tsunami, Westport Quay, Co Mayo 174–5
  very large, eastern USA 60
  wave-form based earthquake location 122
East Greenland, spores from the tetrapod-containing rocks found 59
EC Directive, for conservation of travertine 24
Echinocorys 156
Echinocorys scutata 155
echinoids 155,156
  Anguillan limestone 113
Ecuador, volcanic activity causes evacuation of Baños 125–6
Edinburgh Geological Society, the view from Blackford Hill 5
